Medicine will cure every disease that the human system is heir to; but, for those above named,
(if the directions are strictly followed,) he does
most positively promise it will.

The respectability and standing of the parties who
have tried it, (in some sases the parties have been
afflicted for twenty years,) and whose certificates
can be seen as the drug-stores where the medicine is
for sale, it is presumed will be a sufficient guarantie
that this medicine is all it is represented to be, and
no humbug.

The demand for this medicine at the South, where
it was first introduced, in February last, and where
the good effects and permanent cures are known, is
so streat that it is almost impossible to fill the orders.
